

# The Bells Ring Clear

Can you hear the bells ring clear?  
And is that what you want to hear?  
Can you hear the voices loud  
From those who wish to make us proud  
That we can bomb and shoot and kill  
So their pockets they can fill.

Can you hear the bells ring clear?  
Bringing all that Christmas cheer  
Can you feel the shaking ground?  
Seems to me there is no sound  
Like crashing stone and breaking bone  
Just don't tell the folks back home.

Can you hear the bells ring clear?  
Can you smell the hurt and fear?  
Are you safe and snug and warm?  
Do you think of those who face the storm?  
Flatten homes and lives destroy  
Can't we all have Christmas joy?
